

Brief Overview of the reporting process:

We are incorporating the SG&A expenses (Sales general & Administration expense) KAC process. I have attempted to standardize it by introducing consistent reports that you will receive weekly and monthly via email. To improve efficiency, I have leveraged Power Query to eliminate repetitive manual steps involved in generating these reports.

Data Sources:

All data flowing through Power Query is sourced from the following datasets:

1. Master list of all employees
2. List of GL numbers with GL Title, GL Subcategory, US GAAP Category, Group (P&L / Balance Sheet); in short chart of accounts
3. Departments list & department codes with its reporting director level managers (with their emp IDs, email IDs, & their director level designations)
4. PNLgroups – P&L group details, including department codes and leaders
5. Monthly budget
6. Weekly budget

File Structure and Data Flow

Each month and each week, the following files will be maintained:

1. In monthly folder, Credit_Cards_Data - 01 January.xlsx, Credit_Cards_Data - 02 February.xlsx, ..., till Credit_Cards_Data - 12 December.xlsx
2. In weekly folder, Credit_Cards_Data - Week 01 - January.xlsx, Credit_Cards_Data - Week 02 - January.xlsx, ..., Credit_Cards_Data - Week 06 - February.xlsx, ..., Credit_Cards_Data - Week 14 - March.xlsx, Credit_Cards_Data - Week 14 - April.xlsx, ..., Credit_Cards_Data - Week 31 - July.xlsx, Credit_Cards_Data - Week 31 - August.xlsx, ..., Till Credit_Cards_Data - Week 53 - December.xlsx

Here, the above files names are from year 2025, 2026 weekly files names may vary.

Data flows from the datasets mentioned above and, Weekly and monthly files into “Variance Analysis.pbix”.

From the weekly and monthly files, data flows via Power Query into the “Variance Analysis.pbix” file.

Folder Structure

For 2025, we currently maintain the following folders:

Monthly

Credit_Cards_Data - 01 January.xlsx

Credit_Cards_Data - 02 February.xlsx

...

Till Credit_Cards_Data - 12 December.xlsx

Weekly

Credit_Cards_Data - Week 01 - January.xlsx

Credit_Cards_Data - Week 02 - January.xlsx

...

Credit_Cards_Data - Week 14 - March.xlsx

Credit_Cards_Data - Week 14 - April.xlsx

...

Credit_Cards_Data - Week 31 - July.xlsx

Credit_Cards_Data - Week 31 - August.xlsx

...

Till Credit_Cards_Data - Week 53 - December.xlsx

For year 2026, we have following folders:

Monthly

Credit_Cards_Data - 01 January.xlsx

Credit_Cards_Data - 02 February.xlsx

Credit_Cards_Data - 03 March.xlsx

Credit_Cards_Data - 04 April.xlsx

Credit_Cards_Data - 05 May.xlsx

Credit_Cards_Data - 06 June.xlsx

Credit_Cards_Data - 07 July.xlsx

Weekly

Credit_Cards_Data - Week 01 - January.xlsx

Credit_Cards_Data - Week 02 - January.xlsx

...

Credit_Cards_Data - Week 14 - March.xlsx

Credit_Cards_Data - Week 14 - April.xlsx

...

Credit_Cards_Data - Week 18 - April.xlsx

Credit_Cards_Data - Week 18 - May.xlsx

...

Credit_Cards_Data - Week 28 - June.xlsx

Credit_Cards_Data - Week 28 - July.xlsx

...

Till Credit_Cards_Data - Week 32 - July.xlsx

Additionally, the number of weekly and monthly xlsx files will continue to increase as we progress through the year.
